Please ensure you follow all recommended electrical safety procedure. The guideline below also apply:

1. Do not allow the receiver to make contact with metal objects.
2. Minimum distance of 1.5m between receiver and the ground.
3. Minimum distance of 0.3m between receiver and the ceiling.
4. Minimum distance of 0.3m between receiver and the transmitter.
5. For your safety disconnect all sources of power before wiring.
6. Ensure you are earthed to prevent static damage to components.
7. Multi-core flexible cable is recommended.
8. Fix cables with cable clips to prevent receiver damage.

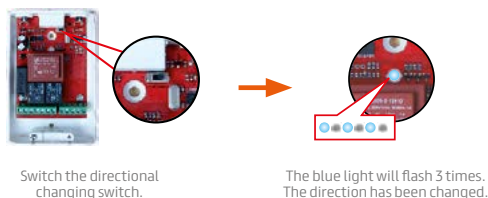

Programming Instructions

YewdaleDefiant® Radio Receiver (980027)

Programming:

Change direction: (method 1)

Change direction: (method 2)

Add a new transmitter:

Each receiver can program a maximum of 20 transmitters. In the event of programming a 21st transmitter, the previously programmed transmitter will be deleted (i.e the 20th).

Delete single channel:

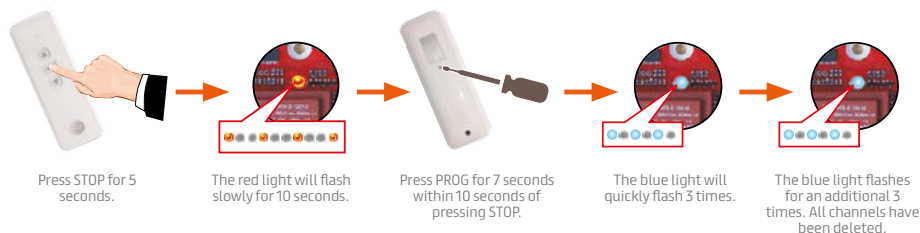

Programming Instructions

YewdaleDefiant® Radio Receiver (980027)

Reset all channels: (method 1)

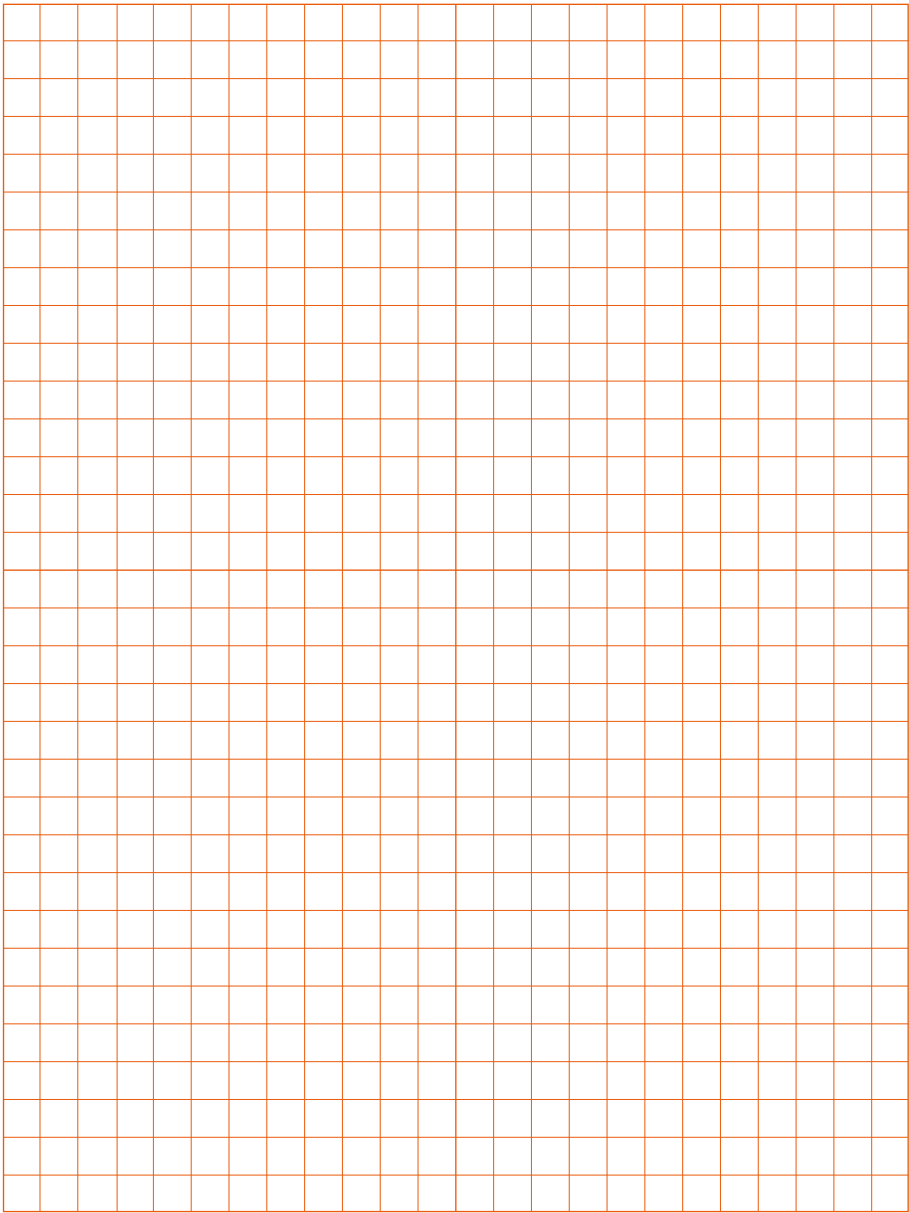

Reset all channels: (method 2)

Trouble Shooting:

Items	Problems	Solution
1	Indicator light is on, but the is no reaction.	Check wiring and confirm selected channel.
2	Indicator on transmitter is off or lit dimly.	Check batteries are correctly installed and fitted.
3	Transmitter and receiver work commonly, motor has no rotation.	Check motor wiring and there is no visible damage to the motor.
