

A dedicated range
of curtains for
healthcare and public
environments focused
on providing privacy,
maintaining dignity
and infection control.

YewdaleHarrier®

The Cubicle and Shower Curtain Range

When it comes to providing privacy, dignity and safety in hospitals, the YewdaleHarrier® range of reusable and disposable curtains ticks all the boxes. Designed to meet the needs of modern NHS trusts and hospitals, they're antibacterial, flame retardant, durable, easy to install and all come with a lifetime guarantee. Available in easy to order ready-made sizes or made bespoke to your requirements.

Anti-bacterial

With curtains being one of the most frequently touched surfaces in hospitals, the YewdaleHarrier® range has been made with infection control in mind.

Our reusable curtain collection is made from anti-bacterial coated PVC fabric which is designed to withstand regular cleaning and sanitisation with detergents. The fabric can easily be wiped down cutting down the risk of hospital-acquired infections (HAI's).

Designed for single-use, our disposable curtains are a lightweight, hygienic alternative to reusable ones. Eco-friendly and 100% recyclable they can be frequently replaced as part of a regular cleaning routine without any detriment to the environment.

Made in the UK

We produce our cubicle curtains in our UK manufacturing facility with stringent quality controls in place to ensure a quality product is produced in a hygienic and safe environment for healthcare supplies.

UK production also significantly cuts down the carbon footprint of our curtains compared to other products on the market. With easy online ordering, UK stock and fast and efficient delivery service, we remove all the delays and uncertainties you may typically experience with ordering from overseas suppliers.

With standard and bespoke sizing available including half sizes, you're guaranteed that we can produce a curtain to fit your special requirements – just get in touch with your request and we'll do the rest.

The YewdaleHarrier® range

Reusable cubicle curtains and screening

6

Durable PVC anti-microbial wipe clean curtains.

Shower Curtains

7

Ready-made, flame retardant shower curtains.

YewdaleHarrier® Disposable cubicle curtains

YewdaleHarrier® Disposable Cubicle Curtains

Disposable cubicle curtains

Infection control:

One of the most important aspects of the hospital environment is infection control. It is now a major factor in the assessment of a hospital's performance and rightly so, as any improvements in infection control can cause an immediate increase in the number of lives saved. And as the risk of infection is reduced, the quality of life for patients is enhanced.

YewdaleHarrier® disposable curtains should become an integral part of every hospital's overall infection control strategy. A programme of regular replacement can be supplemented by a policy of immediate change in any areas that have been exposed to high infection risk.

The curtains are manufactured from recyclable polypropylene and available with or without an impregnated anti-bacterial Biosafe formula. A self-auditing label allows for monitoring of the frequency of curtain changes in line with infection control policies. Test results are available on request.

Eco-friendly and recyclable:

YewdaleHarrier® disposable curtains have a unique patent-pending design, they have no plastic eyelet. Instead, they have a simple hook hollow which saves up to 100 grams of plastic waste per curtain and makes them 100% recyclable. With the curtains being produced in the UK and not overseas, the curtain's carbon footprint is dramatically reduced making them the ideal curtain for healthcare settings that are striving towards carbon neutral targets.

Safe and durable:

Flame-retardant to BS5867 Part 2 Type C and made from 110g lightweight polypropylene, YewdaleHarrier® disposable curtains are safe and tough. The fabric we use is actually up to 40% stronger than other disposable curtains on the market. We have rigorously tested the fabric quality and performance, and guarantee its durability under the harshest of environmental conditions. Test results are available on request.

Enhanced quality of life for patients and staff:

Conventional curtains that have been through many wash cycles soon begin to look worn and tired. YewdaleHarrier® disposable curtains will always look fresh and new - because they are! The curtains are permanently pleated as part of the manufacturing process, which ensures that they will always stack neatly, and close to the wall, giving the ward a bright and orderly appearance at all times.

Antimicrobial option:

With a Biosafe accreditation, our antimicrobial disposable curtain offers better infection prevention and control. Our Biosafe antimicrobial formula inhibits microorganisms, including bacteria, fungi, and viruses, making it ideal for hospitals to reduce healthcare-associated infection rates.

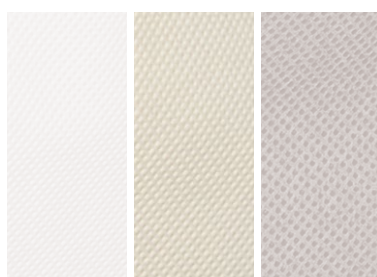

Disposable fabric range comes with a full DURASAFE Accreditation as standard.

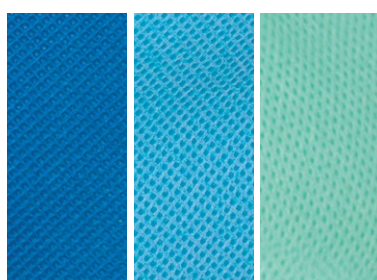

Our antimicrobial version comes with a full BIOSAFE® Accreditation as standard.

This product is manufactured in the UK and is FLAME RETARDANT as standard.

White Cream Grey

Sky Blue Light Blue Mint

Colours:

With a choice of 6 standard attractive colours and bespoke colours available on request, our wide range of disposable curtains will brighten up and compliment any ward décor or building design.

Request our fabric selector for the exact details of our colours.

DPL7 H	Hook hollow & U-hook	3750mm	2000mm

All of the above are available in all standard colours.

YewdaleHarrier® Disposable cubicle curtains

Disposable cubicle curtains

Lightweight and easy to fit:

Designed to be regularly replaced, our disposable curtains are lightweight and easy to handle making them quick and easy to install onto any existing cubicle track gliders or roller hooks at any point on the track. They are easily a one-person install so no need to rely on additional help wasting vital time and resources.

The simple hook hollow

The DPL5 YewdaleHarrier® disposable curtain comes as standard with hook hollows which allow for a quick and easy fit onto any existing cubicle track gliders or roller hooks at any point on the track.

The stalk for an easy glide

The DPL6 YewdaleHarrier® disposable curtain comes with fitted reusable Harrier hooks with stalks which are uniquely designed with a shoulder on the hook so that they can stand upright for easy load and glide.

The U hook for external hanging

The DPL7 YewdaleHarrier® disposable curtain comes with a U-shaped hook for quick removal and installation of disposable curtains which hang externally on the existing cubicle track.

Options:

Curtain tiebacks with hook and loop fastening are available for YewdaleHarrier® disposable curtains in all of our standard colours. The tiebacks hold the curtains in place when not in use and are made from the same anti-microbial material, helping control infection.

Specification:

YewdaleHarrier® disposable cubicle curtains as supplied by Yewdale, 01268 570900, in 100% polypropylene flame-retardant fabric, with the option of Biosafe formula, (DPL5: with hook hollow colour choice from standard and bespoke range) / (DPL6: with stalk/hook colour choice from standard and bespoke range) / (DPL7: with U hook colour choice from standard and bespoke range).

YewdaleHarrier® Reusable cubicle curtains

YewdaleHarrier® Reusable cubicle curtains

Stericurtain

Features:

A cost-effective and sustainable alternative to disposable cubicle curtains, Stericurtain is a reusable PVC cubicle curtain with anti-microbial properties and a wipe-clean surface that prevents the spread of infection in hospital wards.

- 3 100% polyester PVC laminated fabric
- 3 Biosafe anti-bacterial accredited
- 3 Flame retardant to BS5867 Part 2 Type C
- 3 Easy fit to existing cubicle track glider and roller hooks
- 3 Available in standard sizes or made to measure

Benefits:

Switching to a reusable curtain brings huge long term cost savings - no more waste, facilities or laundry costs. The wipe-clean surface can be cleaned immediately using a detergent, unlike other absorbent curtains. Stericurtain will never tear, stain or develop mould, mildew or odours and has a lifetime warranty. Available in Seafoam Blue as standard with other colours available on request.

Specification:

YewdaleHarrier® Stericurtain as supplied by Yewdale, 01268 570900. Flame-retardant 100% polyester PVC laminated fabric for hospitals and healthcare environments, various sizes available.

Clearcurtain

Features:

A reusable clear PVC cubicle curtain that allows hospitals and other healthcare settings to safely screen patients from infections without having to socially distance beds. Provides excellent transparency and clarity so staff and patients can still be visible.

- 3 Durable wipe-clean PVC fabric
- 3 Flame retardant to BS5867 Part 2 Type C
- 3 Hygienic plastic eyelets
- 3 Easy fit to existing cubicle track glider and roller hooks
- 3 Available in bespoke made to measure sizes

Benefits:

Clearcurtain is the safest and most economical solution for preventing the spread of infection whilst maintaining bed space within a hospital ward. The wipe-clean surface doesn't need to be removed for cleaning and can be wiped down and sanitised whilst hanging with normal NHS cleaning solutions. It is safe and durable and will not tear or stain and comes with a lifetime warranty.

Specification:

YewdaleHarrier® Clearcurtain as supplied by Yewdale, 01268 570900. Flame-retardant PVC clear fabric for hospitals and healthcare environments, available in bespoke sizing.

YewdaleHarrier® Shower curtains

YewdaleHarrier® Shower curtains

Shower curtains

Features:

Used widely in hospitals, hotels and leisure centres, the ready-made shower curtain has anti-bacterial properties resisting mould and mildew giving it a longer life in high use areas. Made from fire retardant material it's the perfect heavy duty shower curtain for commercial use.

- 3 Flame-retardant to BS5867 Part 2 Type C
- 3 Biosafe anti-bacterial accredited
- 3 Simple to hang
- 3 Ready-made
- 3 Available in a range of sizes

Benefits:

Made with strong stitched weighted hems and sturdy metal eyelets for durability, these shower curtains are made from 100% polyester and can be easily wiped clean. They are ready-made and available from stock for immediate delivery.

Specification:

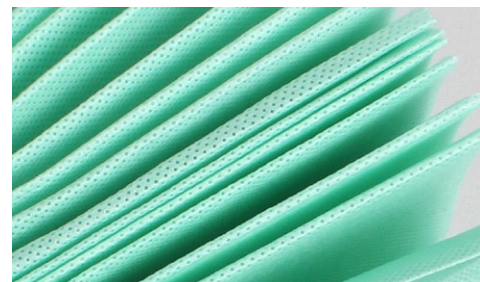

YewdaleHarrier® shower curtains as supplied by Yewdale, 01268 570900. Curtains in white, flame-retardant 100% polyester fabric, with metal eyelets. Various ready-made sizes are available.
