

A comprehensive
selection of low
maintenance durable
curtain tracks for
commercial and
public environments.

YewdaleVitesse® the curtain track system

A comprehensive selection of low maintenance durable curtain tracks for commercial and public environments.

Based around a quality aluminium core for maintenance-free and long life durability, coupled with robust plastic componentry, the YewdaleVitesse® system provides the perfect platform for your curtains to hang from.

A Full Selection

Brought to you by a specialist shading and privacy manufacturer, the YewdaleVitesse® range of curtain tracks provides one of the most comprehensive solutions available. You'll find a track for almost every application, from the lightest of net tracks to heavy-duty corded and motorised tracks for large and heavy curtains.

O&M Guide

All YewdaleVitesse® hand drawn curtain tracks are designed to require little or no maintenance. The tracks and components are made from durable materials that will not corrode in normal use. In the event of damage most components are replaceable. Tracks with gliders may be lubricated occasionally with a sparing application of silicone to retain sliding efficiency.

Tracks with roller runners should not be lubricated. Spare parts may be obtained from the dealers.

Child Safety

Please ensure child safety device is used with cord drawn tracks. The cord tidy should be at a maximum distance from the control mechanism, keeping the loop taut (not under excessive tension however as this could negatively affect the longevity and operation of the track).

The full range YewdaleVitesse®

Hand Drawn Curtain Tracks

4

Aluminium profiled, smooth operation curtain tracks for hand operation use - often the preferred option in public areas where many different people may draw the curtains.

Cord Drawn Curtain Tracks

14

Aluminium profiled track with an easy-to-operate cord system adds a touch of luxury to a very functional track. The smooth and quiet operation of these tracks makes them at home in the most demanding environments.

Electric Curtain Track

20

Designed for strength and reliability, giving years of trouble-free use, these electric aluminium curtain tracks represent the ultimate in curtain control.

YewdaleVitesse® Hand Drawn Curtain Tracks

The YewdaleVitesse® range of curtain tracks is one of the most comprehensive available. There is a track to suit nearly any environment and application. From hospitals to homes, theatres to schools, these hand-drawn tracks excel.

The hand-drawn tracks shown here are each designed to be strong, reliable, easy-to-operate and provide years of trouble-free service. Using aluminium, these tracks exude quality, even down to the high-grade plastic components.

When installed in a public area, peace of mind comes with knowing the blind is robust enough to withstand the most strenuous of uses. High traffic areas that use a curtain are best-suited to a hand drawn operated track, for ease of use and convenience.

The hand-drawn curtain tracks compiled in this section serve anything from net curtains to heavy theatre curtains, so we're confident you'll find the product you require. YewdaleVitesse® curtain tracks are available in fully-made-to-measure form – completely ready for installing, or in a comprehensive individual component form for ease of use within any in-house manufacturing facility. The full range is distributed globally throughout a network of dealers and customers providing an unrivalled level of support, and with experienced installation and service teams to exceed your expectations.

7000W Cord Drawn

Features:

The YewdaleVitesse® 7000W cord drawn curtain track is a top-fix track as standard. Its slim white aluminium track, with a neat and unobtrusive design, is designed for use with light to medium-weight curtains. Self-lubricating polyethylene gliders are supplied at a quantity of 16 per linear metre.

Benefits:

As an exceptionally low profile track, this white aluminium track can be used for almost every lightweight screening application requiring cord drawn operation. With its 250mm centre pre-drilled nature, it requires no fixing brackets although top-fix click brackets are available and lends itself to arched requirements. This track boasts the smallest possible dimensions for a corded track and lends itself to being hidden away from view should such be required.

Options:

Can be arched. Available in any RAL colour of your choice.

Specification:

The YewdaleVitesse® 7000W cord drawn curtain track as manufactured by Yewdale, +44 (0)1268 570900. Ultra slim, top-fix aluminium track with white powder-coated finish and click brackets as applicable. Complete with end-pulleys, operating cord, and self-lubricating gliders at 16 per metre.
