MAGNETIC ANTI-LIGATURE SYSTEM

KVL31 Premium Wand

Features:

The YewdaleKestrel® KVL31 premium vertical blind with added wand control provides a safe solution for a host of anti-ligature shading requirements. Incorporating 40 x 25mm premium profiled white aluminium head-rail and wheeled replaceable plastic carrier trucks, and magnetic wall-fix / top-fix brackets. This ensures that, under excess load, the head-rail separates from the brackets leaving no remaining points of ligature - a highly essential safety feature. The constant transport of the louvres is guaranteed by the precision made aluminium spindle shaft. Wand control operation with built-in slip clutch for louvre tilt. 127mm, 89mm, or 63mm louvres available - all with enclosed louvre weights.

Benefits:

Robust with high quality performance, whilst remaining pleasing to the eye, the KVL31 makes an excellent choice for many sectors. The comprehensive truck options satisfy the most demanding of environments whether it be residential or commercial. The utilisation of the wand control provides the ultimate cord/chain-free solution and offers exceptional ease of use. The control mechanism is enclosed within the head-rail and supported on a sturdy, aluminium back bar, secured by magnetic brackets for 100% fail-safe anti-ligature functionality. With enclosed louvre weights as standard throughout to remove any individual loose part issues.

Options:

Spring metal trucks; Ball & chain control (KVL30).
