FABRIC AND BLIND SYSTEMS

C45 Electric 24v

Features:

The YewdaleDefiant® C45 electric cassette blind with side channels features a low voltage 24v DC motor as standard. This cassette is designed for top or face fixing and accommodates a 40mm grooved aluminium barrel, housing the 24v DC motor. The motor is controlled by a switch which may be surface or flush mounted (not supplied as standard). Fabric is locked into a groove in the barrel with studs fitted at the edge of fabric to retain it within side channels. Aluminium bottom bar. Black or white hardware as standard.

Benefits:

Fingertip control and a slim yet sturdy aluminium frame help this blind lend an air of luxury to any environment and makes the C45 a perfect choice for motorised requirements. Our quiet and reliable motor is housed within the barrel and supported by sturdy, metal brackets. The headbox looks stylish and suits a range of settings. Choose between a rounded or square headbox to complete the blind and protect it from dust and damage.

Enjoy a shorter installation time by following our simple goalpost installation method. Simply connect the side channels to the headbox and install the C45 cassette blind as a frame.

Options:

Square or rounded headbox; Black or white hardware; Remote and/or group control systems in place of single switch; Tracker fabric retaining system; Available in any RAL colour.

Specification:
