

# Clearcurtain

## The reusable clear cubicle curtain

Clearcurtain is a reusable clear PVC cubicle curtain that allows hospitals and other healthcare settings to safely screen patients without having to socially distance.

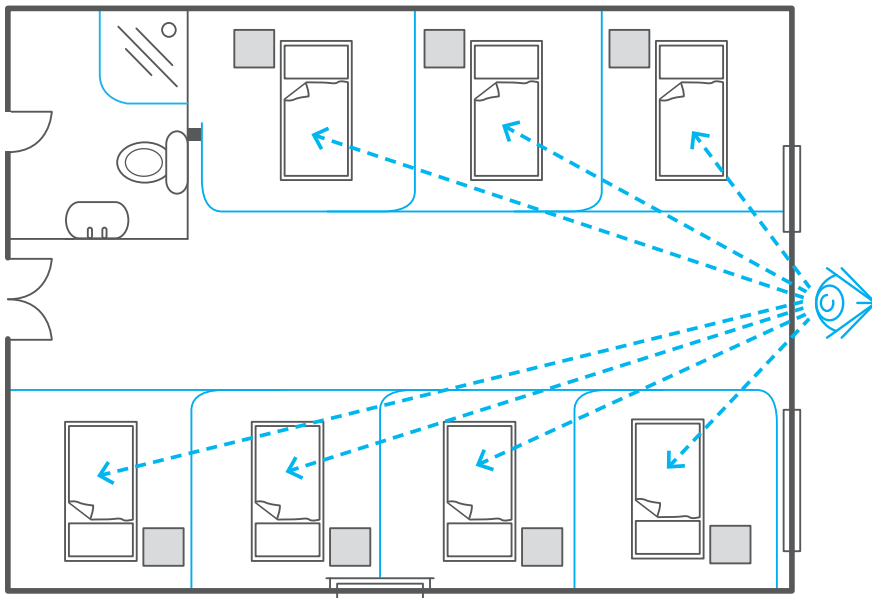

The curtain provides the safest and most economical solution for preventing the spread of infection whilst maintaining bed space within a hospital ward.

- ✓ Wipe clean surface
- ✓ Durable PVC fabric
- ✓ Hygienic plastic eyelets
- ✓ Bespoke sizing available
- ✓ Flame retardant
- ✓ Lifetime warranty

## Maintain bed spaces

No need to remove beds to socially distance patients.

## Outstanding visibility

Has excellent transparency and clarity so staff and patients can still be visible.

## Wipe clean surface

No need to remove the curtain for cleaning – it can be wiped down and sanitised whilst hanging with normal NHS cleaning solutions.

## Track compatibility

Fits to any existing cubicle track glider hooks or roller hooks by simply attaching the hooks through the plastic eyelets.

## Safe and durable

Manufactured from strong hygienic PVC fabric which will not tear or stain as well as being flame retardant.

## Sizing and availability

Manufactured by Yewdale in the UK means we can provide a bespoke made to measure service.
