

YewdaleDefiant® Lyn dimout fabric:

Crafted for environments where privacy and light shading are desired but not essential. Its non-flame retardant composition removes the coating, resulting in a lighter, more versatile fabric while maintaining a familiar, stylish appearance.

With a generous selection of 40 colors and widths of up to 2500mm, it offers a hassle-free, joint-free finish.

YewdaleDefiant® lyn fabric

shading efficiency

Transmittance is the amount of light and heat transmitted beyond the fabric. The lower the amount, the greater the efficiency.

Block/reflect is the amount of heat and light that is blocked or reflected. The higher the amount, the greater the efficiency.

Absorption is the amount of heat and light absorbed in the fabric. The higher the amount, the lower the efficiency.

Ultraviolet protection illustrates how protective the fabric is against ultraviolet rays. The higher the amount, the greater the effectiveness.
