## Perfect Fit<sup>®</sup> venetian blinds guide

Model	Min Width	Max Width	Max Drop	Max M <sup>2</sup>
PFV20	300	1400	3000	2.1

### Perfect Fit<sup>®</sup> venetian blinds

#### Features:

Our Perfect Fit<sup>®</sup> Venetian blinds combine the luxurious appearance of a standard Venetian blind with the ease of installing a perfect fit blind. The blind is supplied with right-angled metal brackets which you push into the window seal. The blind's frame has slots which accommodate the brackets, holding the shading system in place.

#### Benefits:

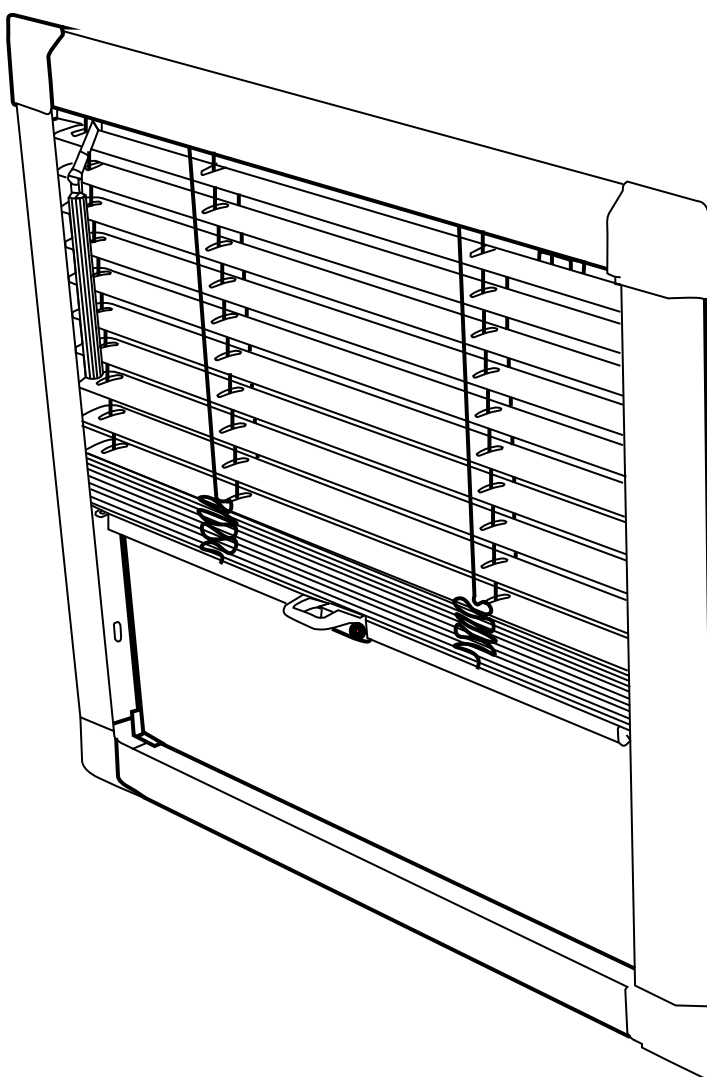

Installing Perfect Fit<sup>®</sup> Venetian blinds is quick and easy. No holes need to be drilled into the uPVC frame. The blind is fitted to the window, reducing the gap that light and air can pass through. Perfect Fit<sup>®</sup> blinds suit glass doors and windows that open inwards because the blind moves with them. Perfect Fit<sup>®</sup> blinds are completely child-safe because there are no hanging cords or loops. The handle on the bottom bar controls the open and close of the blind within the frame and the wand controls the tilt of the slats. Delivered free from damage by Yewdale Elite delivery vans.

#### Options:

Frame colour options: White, Black, Anthracite. Other colours available on request.

#### Specification:

The YewdaleDefiant<sup>®</sup> Perfect Fit<sup>®</sup> Venetian blind incorporating an aluminium frame, window fixing brackets, end caps and corner joints. The main default hardware colour for the Perfect Fit<sup>®</sup> blinds is white. All fabrics in the YewdaleDefiant<sup>®</sup> range is flame retardant.
