

R20D Double Roller

YewdaleDefiant® Roller Blinds

R20D Double Roller Blind

Features:

The YewdaleDefiant® R20D double roller blind incorporates Slipstream® Technology (patent pending) and has a metal control chain as standard. There are white metal universal brackets for face, top or side fixing with a 40mm or 45mm grooved aluminium barrel, depending on the size of the blind and fabric weight. Fabric is locked into a groove in the barrel, and features a white plastic bottom bar as standard. The bottom bar is covered with fabric at the front.

Benefits:

The versatility of the R20D makes it first choice for a vast range of applications. With the double roller mechanism it allows for different fabric styles or colours to cover one window. Vandal resistant features includes Slipstream®: a friction reducing technology - smooth action operation, air cooled design and double spring function - providing you with enhanced hold, exceptional long life properties and advanced chain loading. Metal control chain, fabric locked into the barrel and bottom bar, and sturdy, attractive metal brackets with covers.

Options:

Bracket covers; 1:4 Geared mechanism; Plastic control chain; Alternative bottom bars including fully fabric covered in aluminium or plastic, Round aluminium in white or silver and Teardrop aluminium in black, silver or white; Wire side-guiding system; White aluminium back bar; Channel side-guiding system.

Specification:

The YewdaleDefiant® R20D double roller blind incorporating Slipstream® Technology for enhanced hold, advanced loading and exceptional long life properties as manufactured by Yewdale, +44 (0)1268 570900. Flame retardant fabric from the YewdaleDefiant® range, locked into grooved 40/45mm aluminium barrel along with white plastic bottom bar. Metal control chain and white plastic bracket covers.
