

Clearcurtain

Features:

A reusable clear PVC cubicle curtain that allows hospitals and other healthcare settings to safely screen patients from infections without having to socially distance beds. Provides excellent transparency and clarity so staff and patients can still be visible.

- ✓ Durable wipe-clean PVC fabric
- ✓ Flame retardant to BS5867 Part 2 Type C
- ✓ Hygienic plastic eyelets
- ✓ Easy fit to existing cubicle track glider and roller hooks
- ✓ Available in bespoke made to measure sizes

Benefits:

Clearcurtain is the safest and most economical solution for preventing the spread of infection whilst maintaining bed space within a hospital ward. The wipe-clean surface doesn't need to be removed for cleaning and can be wiped down and sanitised whilst hanging with normal NHS cleaning solutions. It is safe and durable and will not tear or stain and comes with a lifetime warranty.

Specification:

YewdaleHarrier® Clearcurtain as supplied by Yewdale, 01268 570900. Flame-retardant PVC clear fabric for hospitals and healthcare environments, available in bespoke sizing.
