Anti-Ligature Performance

Magnetic brackets ensure suspension hangers separate cleanly

Described as the only fail-safe magnetic anti-ligature system range

Anti-jam magnetic design avoids male/female socket arrangements

Anti-domino **design prevents an entire installation collapsing** when a single section activates

Quickest, cleanest and quietest track on the market

Shaped to suit all requirements to **maximise space**

Strength & Reliability

Premium aluminium track spanning 2.5m between hangers

Rigid high-grade aluminium profile

Self-lubricating wheeled roller hooks

Magnets **do not suffer traditional wear and tear**

Proven use in mental health facilities, psychiatric hospitals and prisons **for over 30 years**

Flat top for the **most hygienic** and easy way to clean

Load Release

Magnetic release works regardless of pull direction

No breakable components are used in the release

Components can be **quickly reattached after activation** without replacing parts

Product Offering & Support

Supplied with a curtain removal point as standard

BioSafe® antibacterial coating

Backed by **accredited installer training**

Supported by a wider anti-ligature ecosystem

Lifetime warranty

Reviews From Past Customers

For over 20 years, the staff are always friendly and extremely helpful...

I have been using Yewdale for my Curtain Tracks & Blinds for over 20 years, the staff are always friendly and extremely helpful. Their turn round of orders are super quick and get back with quotations the same day. Their delivery drivers are superb and are always on time and will always notify when they are due with a delivery. Yewdale products and production are always reliable, Yewdale are one of my most reliable suppliers.
