## 7000W Cord Drawn

### Features:

The YewdaleVitesse® 7000W cord drawn curtain track is a top-fix track as standard. Its slim white aluminium track, with a neat and unobtrusive design, is designed for use with light to medium-weight curtains. Self-lubricating polyethylene gliders are supplied at a quantity of 16 per linear metre.

### Benefits:

As an exceptionally low profile track, this white aluminium track can be used for almost every lightweight screening application requiring cord drawn operation. With its 250mm centre pre-drilled nature, it requires no fixing brackets although top-fix click brackets are available and lends itself to arched requirements. This track boasts the smallest possible dimensions for a corded track and lends itself to being hidden away from view should such be required.

### Options:

Can be arched. Available in any RAL colour of your choice.
